Metson was established in 1994 in Randburg, Johannesburg as an Agricultural manufacturing company. Over the years, **Metson** has more than tripled its manufacturing capabilities, sourcing the best raw materials locally and abroad, supplying product to countries as far as Romania, but with a focus on Southern Africa. **Metson's** core focus is on a complete range of products; such as water-soluble granules, carbohydrate chelates, micro-nutrients, liquid fertilizers, crop-specific mixtures, growth stimulants, crop protectants, seed coatings and spray adjuvants.

Metson is committed to continuous research and development as well as product innovation, ensuring efficient and cost effective agricultural solutions. **Metson** takes pride in rendering crop-specific and grower-specific spray recommendations to optimize crop quality and yield. **Metson** products comply strictly with the Department of Agriculture Act 36 of 1947 standards and regulations. **Metson** Group of Companies are proud members of CropLife South Africa, AVCASA, The South African Fertilizer Society (FERTASA), South African Nursery Association (SANA) and are Proudly South African. **Metson** is also Afri-Compliant and certified by NOSA. **Metson's** products are supported by a highly knowledgeable, technical and customer-driven team that strives to provide legendary service. From order to production and delivery, **Metson** strives to supply the right product to the right customer, at the right time, all the time, fulfilling any size order.
